

CHREN/FFVT Online Workshop

## “Displacement, Immobility and Human Rights” 2021

27.5. + 1.7./15.7.21

The cooperation project “Forced Migration and Refugee Studies: Networks and Transfer” (FFVT) aims to strengthen interdisciplinary research on refugees and forced migration in Germany. The project, which is funded by the German Federal Ministry of Education and Research (BMBF), therefore brings together research on topics such as migration, development, conflict, climate change, health, governance and human rights. It also promotes the dialogue between academia, practitioners, the media and politics. With this timely workshop-series, the intersection of displacement, immobility and human rights will be assessed from different dimensions, localities, and including multiple perspectives.
